The Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg is the competent authority of the product manufacturer and of the Fund.

This Packaged Retail and Insurance-based Investment Product (PRIIP) is authorised in Luxembourg.

BIL Manage Invest S.A. is authorised in Luxembourg and regulated by the CSSF.

This key information document is accurate as at 1st January 2023.

What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of BIL Invest, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However, the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

Principal assets traded

Bonds and other debt securities and/or equities, through investment Funds and/or derivatives.

Investment strategy

The Fund pursues an absolute return objective by investing in the principal assets traded over the recommended investment period.

Within the limits imposed by the Fund's objective and investment policy, the management team makes discretionary investment choices in the portfolio based on its analyses of the characteristics and growth prospects of the assets traded.

The Fund may use derivative products both for investment and hedging purposes (hedging against unfavourable future financial events).

The Sub-Fund is not an index compartment and will be actively managed.

Redemption of shares

On request, every day, in Luxembourg.

Other information

This Class is cumulative. Dividend distributions are not planned.

The return of the product is determined by using the net asset value calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

The Sub-Fund's assets are segregated from assets of other Sub-Funds of the Fund. The assets of the Sub-Fund cannot be used to pay debts of other Sub-Funds.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

The depositary is RBC Investor Services Bank S.A..

The registrar and transfer agent is RBC Investor Services Bank S.A..

Further information about the Fund (including the prospectus, other classes, latest annual and semi-annual reports, latest NAVs) are available in English free of charge on www.bilmanageinvest.lu or by making a written request to the registered office of the product manufacturer.

Investors may switch between shareclasses or Sub-Funds of the Fund. Please see the prospectus for details.

This key information document describes the named Sub-Fund; however, the prospectus and the periodic reports are prepared for all the Sub-Funds of the Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	3 years EUR 10 000		
	If you exit after 1 year	If you exit after 3 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs Average return each year	EUR 8 880 -11.2%	EUR 8 060 -6.9%
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8 840 -11.6%	EUR 8 600 -4.9%
Moderate scenario	What you might get back after costs Average return each year	EUR 9 390 -6.1%	EUR 8 910 -3.8%
Favourable scenario	What you might get back after costs Average return each year	EUR 10 370 3.7%	EUR 10 290 0.9%
			This type of scenario occurred for an investment in the proxy then the product between November 2015 and November 2018.
			This type of scenario occurred for an investment in the proxy between February 2013 and February 2016.
			This type of scenario occurred for an investment in the product between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if BIL Manage Invest S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with RBC Investor Services Bank S.A. and are segregated from the assets of other Sub-Funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other Sub-Funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level. Poor market conditions are very unlikely to impact the Fund's capacity to pay you.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 619	EUR 1 118
Annual cost impact (*)	6.2%	3.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.1% before costs and -3.8% after costs.

Composition of costs
